

## BENEFITS

All States round weekly benefits for total unemployment (Table 304). In all States benefits are paid in even dollar amounts.

**320.02 FLEXIBLE MAXIMUM WEEKLY BENEFITS.**--More than half the States provide for annual or semiannual computation of the maximum weekly benefit amounts based on wages within the State. The maximum in these States is usually defined as more than 50 percent of the average weekly wage in covered employment within the State during a recent 1-year period and the computed amount usually becomes effective in July. Under these provisions, the maximum weekly benefit amount automatically increases to reflect the upward movement of wages. In Ohio the maximum is adjusted annually by any percentage increase in the State average weekly wage during the preceding fiscal year. Iowa computes five different flexible maximums, the amount payable depending on the number of dependents the claimant has. In Minnesota the State average weekly wage used to compute the maximum weekly benefit amount will depend on the balance in the fund. The significant variations in the flexible maximum benefit provisions are shown in Table 305.

**320.03 FLEXIBLE MINIMUM WEEKLY BENEFITS.**--In most States the minimum weekly benefit is an amount specified in the law, ranging from \$5 to \$87. However, seven States--Arkansas, Kansas, Montana, New Mexico, Oregon, Washington, and Wyoming--have enacted flexible minimum benefits. New Mexico computes the minimum benefit annually at 10 percent; Arkansas at 12 percent; Montana, Oregon and Washington at 15 percent of the State average weekly wage. Kansas computes the minimum benefit annually at 25 percent of the maximum weekly benefit amount. Wyoming computes the minimum benefit annually at 4 percent of the minimum qualifying wages in the high quarter.

### 325 BENEFITS FOR PARTIAL UNEMPLOYMENT

All States provide for the payment of benefits when underemployment reaches a certain stage. In the majority of States a worker is partially unemployed in a week of less than full-time work if less than (in Puerto Rico, not in excess of) the weekly benefit amount is earned from the regular employer or from odd-job earnings. In some States a claimant is partially unemployed in a week of less than full-time work when less than the weekly benefit plus an allowance is earned, either from odd-job earnings or from any source as indicated in Table 306. Only in two States is there any limit on a week of less than full-time work: in North Carolina, a week of less than 3 customarily scheduled full-time days; in Puerto Rico, any week in which the individual's wages and remuneration from self-employment amount to less than twice the weekly benefit amount.

The amount of benefits for a week of partial unemployment is usually the weekly benefit amount less the wages earned in the week with a specified allowance (Table 306). In Indiana only earnings from other than base-period employers are included in the specified allowance. In Puerto Rico the allowance is the full weekly benefit amount. In Idaho, Illinois and Nebraska, the allowance is one-half the weekly benefit amount; in Arkansas it is two-fifths; in Massachusetts it is one-third; in Colorado, Iowa and South Carolina it is one-fourth; in New Hampshire, New Mexico, Ohio and Rhode Island it is one-fifth. In the District of Columbia and Kentucky it is one-fifth of the wages earned in the week, in Nevada, one-fourth, and in Connecticut it is one-third; in Washington one-fourth of earnings in excess of \$5; in the Virgin Islands one-fourth of earnings in excess of \$15; in Alaska 3/4 of wages in excess of \$50. In South Dakota it is 25 percent over \$25. In Louisiana it is the lesser of 50 percent of an individual's weekly benefit amount or \$50. In Nebraska the full weekly benefit is paid if earnings are half or less than the weekly benefit, but only half the weekly benefit is paid if wages are more than the weekly benefit.

## **BENEFITS**

Most State laws provide that the benefit for a week of partial unemployment, if not an even-dollar amount, shall be rounded to the nearest or the lower dollar. In a State with a \$3 allowance and rounding to the lower dollar, a claimant with a \$20 weekly benefit amount and earnings of \$10.95 would receive a partial benefit of \$12.

In New York benefits for less than a full week of unemployment are paid at the rate of one-fourth of the weekly benefit for each effective day. Since an effective day is a day of unemployment in excess of 3 days of unemployment in a calendar week--or not more than 3 days of employment--and earnings of not more than \$300, a partially unemployed claimant may have 1 to 3 effective days in a week and may get one-fourth to three-fourths of the weekly benefit.

The relationship of partial benefits and dependents' allowances is discussed in section 330.03.

California, Illinois, Indiana, Maine, Minnesota and Washington have special provisions concerning benefits for claimants who are unable to work or unavailable for work for part of a week. In Indiana one-third of the weekly benefit amount is deducted for each day the claimant is unavailable for work; in Illinois and Minnesota, one-fifth; in California and Washington, one-seventh of the weekly benefit; however, in Washington no benefits are paid if a claimant is unavailable for 3 or more days in a week. Maine prorates benefits for the portion of the week during which the claimant was able to and available for work.

Rhode Island makes special provision for totally unemployed claimants who have days of employment between the end of the waiting period and the beginning of the first compensable week, and also for those who return to work prior to the end of a compensable week, provided they have been in receipt of benefits for at least 2 successive weeks of total unemployment. For each day of unemployment in such week in which work is ordinarily performed in the claimant's occupation, one-fifth of the weekly benefit is paid, up to four-fifths of the weekly rate.

### **330 DEPENDENTS ALLOWANCES**

The State laws that provide dependents' allowances vary in the definition of compensable dependent and in the allowance granted. In general, a dependent must be "wholly or mainly supported by the claimant" or "living with or receiving regular support from him." In Massachusetts, allowances may be paid only for those dependents domiciled within the United States or its Territories or possessions.

**330.01 DEFINITION OF DEPENDENT.**--All States with dependents' allowances include children under a specified age (Table 307). In some States children are the only dependents recognized. The intent is to include all children who the claimant is morally obligated to support. Hence, stepchildren and adopted children are included in most States; married children are excluded in Alaska and New Jersey. In most of these States allowances may be paid on behalf of older children who are unable to work because of physical or mental disability.

Some State provisions include other dependents. Included within the definition of dependents are nonworking spouses living in the same household as the claimant (Connecticut); an individual's unemployed spouse (New Jersey); a legally married spouse living with and being wholly or chiefly supported by the claimant (Iowa and Pennsylvania); spouse receiving more than half of their support from a claimant, but only if they are not currently eligible for benefits due to insufficient base-period wages (Illinois); spouses unable to work because of disability (District of Columbia); and dependent parents, brothers, and sisters who are unable to work because of age or disability (District of Columbia, Iowa and Michigan). In Michigan and Ohio, allowances are paid if the dependents were unemployed and were receiving more than half of their support from the claimant for 90 consecutive days; or for the duration of the

## BENEFITS

In several States with an average-weekly-wage formula, maximum potential benefits depend on a fraction of weeks worked (Table 309). In Michigan duration--like the weekly benefit amount--is figured separately for each employer in inverse chronological order.

In all States, the maximum potential benefit may be used in weeks of total or partial benefits. If a claimant has some or all weeks of partial benefits, the number of weeks of benefits may be greater than the number shown in Table 309. In a few States with dependents' allowances, the maximum potential benefits in a benefit year may be greater than the amount shown in Table 309. (Table 308, footnote 1).

**335.02 MINIMUM WEEKS OF BENEFITS.**--In Idaho, Kentucky and North Carolina, with variable duration and a high-quarter benefit formula, a minimum number of weeks duration (10 to 26) is specified in the law. In other States the minimum potential annual benefits result from the minimum qualifying wages and the duration fraction or from a schedule. For any claimant this minimum amount may be translated into weeks of total unemployment by dividing the potential annual benefit by the weekly benefit. If the weekly benefit amount for a claimant who barely qualifies for benefits is higher than the statutory minimum weekly benefit (because the qualifying wages are concentrated largely or wholly in the high quarter), the weeks of duration are correspondingly reduced.

**335.03 MAXIMUM WEEKS OF BENEFITS.**--Maximum weeks of benefits vary from 26 to 30 weeks, most frequently 26 weeks. Table 309, giving the number of States by maximum weeks of benefits and maximum weekly amounts, shows the general tendency of the State formulas to be liberal in both respects if liberal in one.

For State programs with extended duration (see sec. 335.07)

Iowa uses a duration fraction of 1/2 base-period wages up to a maximum of 39 weeks of benefits if the individual is laid off because the employer went out of business. All other claimants are limited to a duration fraction of 1/3 base-period wages up to a maximum of 26 weeks of benefits.

See Section 420 for States with extended durations for claimants who are in approved training.

**335.04 OTHER LIMITS ON DURATION.**--In most States with variable duration, claimants at all benefit levels are subject to the same minimum and maximum weeks of duration.

Three States include a limitation on wage credits in computing duration. In Colorado only wages up to 26 times the current maximum weekly benefit amount per quarter count; in Indiana, wages up to \$5,000. In Missouri wage credits are limited to 26 times the claimant's weekly benefit amount. This type of provision tends to reduce weeks of benefits for claimants at the higher benefit levels.

**335.05 MAXIMUM POTENTIAL BENEFITS IN A BENEFIT YEAR.**--In the 53 States maximum potential basic benefits in a benefit year are lowest in Puerto Rico and highest in Washington. In the States with dependents' allowances, maximum potential benefits for the claimant with maximum dependents' allowances are lowest in Iowa and highest in Massachusetts. The qualifying wages required for these various amounts vary even more widely than the benefits, as shown in Table 309. The variations are related more to the type of formula than to the amount of benefits.

## BENEFITS

**335.06 FEDERAL-STATE EXTENDED BENEFITS (EB).**--The Federal-State extended benefit program, established by Public Law 91-373, is designed to pay EB to workers during periods of high unemployment. The program is financed equally from Federal and State funds and becomes operative on a State level. An EB period becomes effective in a State in the third week following the week in which a State "on" indicator is reached and stays effective until the third week following the first week in which State indicators are "off", but for not less than 13 weeks.

A State "on" indicator is reached in the last week of the 13-week period when the rate of insured unemployment (not seasonally adjusted) in the State for such period (a) equals or exceeds 120 percent of the average of such rates for the corresponding period in each of the preceding 2 calendar years, <sup>1/</sup> and (b) is not less than 5 percent.<sup>2/</sup> However, no EB period may begin by reason of a State "on" indicator before the fourteenth week after the close of a prior EB period in that State. A State "off" indicator is reached in the last week of the specified 13-week period when the rate of insured unemployment (not seasonally adjusted) in the State for such period either (a) falls below 120 percent of the average of such rates for the corresponding period in each of the preceding 2 calendar years, <sup>1/</sup> or (b) is less than 5 percent.

The Unemployment Compensation Amendments of 1992 (P.L. 102-318) permits States to pay EB for weeks beginning March 7, 1993, using an alternative trigger based on the seasonally adjusted total unemployment rate (TUR) as determined by the Secretary of Labor. Under the alternative trigger a State may trigger "on" for a week if the TUR for the most recent 3 months (a) equals or exceeds 6.5 percent and (b) the average TUR in the State equals or exceeds 110 percent of the TURs for either or both of the corresponding 3 month periods in the 2 preceding calendar years. However, no EB period may begin by reason of a State "on" indicator before the fourteenth week after the close of a prior EB period in that State. The State will trigger "off" EB when either (a) the TUR falls below 6.5 percent or (b) the requirements pertaining to the TUR in the previous 2 years are not satisfied. States electing to use the new alternative trigger will provide for the payment of 7 additional weeks of EB when the TUR reaches 8.0 percent. Alaska, Connecticut, Kansas, Oregon, Rhode Island, Vermont, and Washington have amended their laws to adopt the optional TUR trigger.

Within certain requirements, EB is payable at the same rate as the claimant's weekly benefit amount under the State law. A claimant may receive EB equal to the least of the following amounts: one-half the total amount of regular benefits, including dependents' allowances; or 13 times (20 times when rate reaches 8.0 percent) his weekly benefit amount. There is an overall limitation of 39 weeks (46 weeks when rate reaches 8.0 percent) on regular and EB.

An EB claimant who fails to apply for or to accept suitable work or who fails to actively engage in seeking work is not entitled to EB for the week in which such failure occurred, and the claimant is further ineligible beginning with the week following the week in which such failure occurs and until the individual has been employed during at least 4 weeks and has earned a total of 4 times the individual's EB amount.

Suitable work for EB claimants is defined as "any work within such individual's capabilities except that if the individual furnishes evidence satisfactory to the State agency that such individual's prospects for obtaining work in his customary occupation within a reasonably short period are good, the determination of whether any work is suitable with respect to such individual shall be made in accordance with the applicable State law". An individual cannot be

---

<sup>1/</sup>State law may waive this requirement whenever the IUR in the State equals or exceeds 6 percent.

<sup>2/</sup>Twelve States do not waive the 120% criterion. However, New York allows waiver of the 120% criterion at the discretion of the director.

## **BENEFITS**

disqualified for failing to accept an offer of suitable work, or to apply for suitable work to which referred by the State agency, if the gross weekly pay of the job does not exceed the extended weekly benefit amount payable to him for a week of total unemployment plus the amount of any supplemental unemployment benefits (SUB) payable for such week. Such jobs cannot pay less than the higher of the Federal minimum wage or any applicable State or local minimum wage and the job offer must be in writing and listed with the State agency.

An EB claimant must also make a "systematic and sustained effort" to seek work each week and must provide "tangible evidence" to the State agency that he/she has done so. The State agency must refer EB claimants to jobs which meet the suitability requirements. A claimant who fails to meet this work search requirement is disqualified until he/she has worked at least 4 weeks and earns 4 times the weekly benefit amount. However, States may provide an exception to this disqualification and apply only week to week eligibility determinations to EB claimants who are serving on jury duty or hospitalized for treatment of an emergency or life threatening condition if the State treats regular claimants in this fashion.

The above EB eligibility requirements pertaining to work search, suitable work, and requalification following a disqualification are suspended for weeks of unemployment beginning after March 6, 1993, and before January 1, 1995.

Extended benefits payable to an interstate claimant shall be limited to 2 weeks unless both agent and liable States are in an EB period.

A claimant is required to have 20 weeks of work, or the equivalent, (1-1/2 times high-quarter wages or 40 times weekly benefit amount) in order to qualify for EB. Also, a claimant who receives TRA will have his EB entitlement reduced by the number of weeks of TRA he received if he received TRA before EB triggered "on" in the State.

The Federal 50% matching share of EB will be reduced if a State fails to require a waiting week or if it fails to have a benefit structure in which benefits are rounded down to the lower dollar. Colorado, Delaware, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, North Carolina, North Dakota, Oklahoma, South Dakota, West Virginia and Wyoming reduce the EB amount payable to a claimant during a period in which Federal payments to States for EB are reduced pursuant to a sequester order under Gramm-Rudman-Hollings.

**335.07 STATE PROGRAMS FOR EXTENDED DURATION.**--A few States have solely State-financed programs for payment of EB during periods of high unemployment. Washington has a temporary additional benefit program for dislocated workers. In Washington no new claims will be accepted beginning July 1, 1995. Washington also has a temporary supplemental additional benefits program (expires Dec. 31, 1995) for individuals who had a balance of Federal-State Extended Benefits after February 26, 1994. In Puerto Rico EB is paid to claimants who became permanently displaced from their usual occupation as a direct result of technological progress in the industry; permanent removal of an industry, factory, or occupation; or the elimination or reduction of the sugarcane crop areas. In the other States they are paid when unemployment within the State reaches specified levels.

In California and Oregon with a variable duration and a maximum of 26 weeks, potential benefits are extended by 50 percent up to a maximum of 13 weeks, California and by 25, Oregon. Puerto Rico, with uniform duration of 20 weeks, Connecticut and the District of Columbia, with a uniform duration of 26 weeks, extend potential duration by 32 weeks, 13 weeks and 10 weeks, respectively. Alaska pays State-financed EB under the same conditions as the Federal-State program if the claimant meets all requirements but fails to meet the additional earnings requirement for Federal-State EB.

## **BENEFITS**

State EB may not be paid in California or Connecticut for any week for which an individual is entitled to or is receiving Federal-State EB. Total Federal-State EB and State EB are limited in California to the lesser of 13 times the weekly benefit amount or one-half the maximum amount of normal benefits payable during the benefit year. Also, California has additional employment qualifications for receipt of State EB.

In California benefits start when the insured unemployment rate for the most recent 13 weeks is 6 percent or more, and end when such rate for the most recent 13 weeks falls below 6 percent. In Connecticut EB begins and ends under the same criteria used for triggering in a State "on" and "off" indicator under the Federal-State program.

Hawaii has a separate law, known as the Additional Unemployment Compensation Benefits law, that provides 13 additional weeks of benefits when a natural or manmade disaster causes damage to either the State as a whole or any of its counties and creates an unemployment problem involving a substantial number of persons and families.

Minnesota pays up to 10 weeks of additional benefits if the employer reduces operations at a facility employing 100 or more for 6 months resulting in a 50 percent reduction of the work force; and the employer does not intend to resume operations; and the unemployment rate in the facility's county was 10 percent during the month of reduction or any of the 3 months preceding or succeeding the reduction.

See Section 420 for States with extended durations for claimants who are in approved training.

### **340 SEASONAL EMPLOYMENT AND BENEFITS**

In most States no distinction is made, in determining an individual's benefit rights, between wages received from a covered employer whose operations are seasonal in character and those received in employment not regarded as seasonal. In these States, entitlement to benefits is determined under the same benefit provisions, whether the claimant's base-period employment had been in seasonal or nonseasonal work. In many States the wage levels and the length of the operating period of seasonal pursuits are such that individuals, whose only or primary employment has been in seasonal work, are automatically excluded from benefits because they do not meet the wage or employment requirements (Table 301). Also, in applying the availability-for-work test (sec. 410) all States give special attention to claimants who earned all or a large part of their base-period wages in seasonal employment--especially those filing for benefits during the off-season of the industry in which the wages were earned.

In 15 States there are special provisions, varying in their effect of the benefit rights of the workers concerned, governing the payment of benefits based on earnings in seasonal employment. In these States, there are restrictions on the payment of benefits to workers who earned some or a substantial part of their base-period wages in employment defined as seasonal. In these special provisions the term seasonal is defined in specific terms--either in the statute or in the rules or regulations implementing the statute--and is applied to (a) the industry, employer or occupation involved; (b) the wages earned during the operating period of the employer or industry; and (c) the worker himself. In most States the designation of seasonal industries, occupations, or employers and the beginning and ending dates of their seasons is made in accordance with a formal procedure, following action initiated by the employment security agency or upon application by the employers or workers, involving hearings and presentation of supporting data. Arkansas law provides that any employer classified as a seasonal employer may request not to be treated as a seasonal employer.

The first processing of perishable food products and agricultural or horticultural products is designated as seasonal in Delaware and Wisconsin. Delaware also includes first processing of seafood products and Wisconsin includes forestry, commercial fishing, hunting or trapping.

## BENEFITS

In six other States a seasonal pursuit, industry, or employer is defined in such terms as one in which "because of climatic conditions or the seasonal nature of the employment it is customary to operate only during a regularly recurring period or periods of less than (a specified number of weeks)": 16 weeks in Massachusetts; 25 weeks in Colorado; 26 weeks in Indiana; 26 weeks in Maine<sup>1/</sup> and Ohio; 36 weeks in North Carolina.

In Arkansas, an industry may be designated as seasonal if, because of its seasonal nature, it is customary to lay off 40 percent or more of the workers for as many as 16 weeks during a regularly recurring period of each year.

In general, the restrictions on the payment of benefits to individuals employed during the operating periods of these seasonal industries fall into one of four groups.

1. The most frequent restriction provides that wage credits earned in seasonal employment are available for payment of benefits only for weeks of unemployment in the benefit year that fall within the operating period of the employer or industry where they were earned: wage credits earned in non-seasonal work, or in employment with a seasonal employer outside the operating period, are available for payment of benefits at any time in the benefit year. The States with this type of provision are listed below, together with the definitions of "seasonal worker" to whom the restrictions apply:

Arkansas	Off-season wages of (a) less than 30 times the weekly benefit amount, if worker's seasonal wages were earned in an industry with an operating period of 2-6 months; or (b) less than 24 times the weekly benefit amount, if seasonal wages were earned in an industry with operating period of 7-8 months.
Colorado	Some seasonal wages in operating period of seasonal industry.
Indiana	Some seasonal wages in operating period of seasonal employer.
Maine	Some seasonal wages in operating period of seasonal employer.
Massachusetts	Some seasonal wages in operating period of seasonal industry.
Michigan	Some seasonal wages in operating period of seasonal industry. <sup>2/</sup>
Mississippi	Off-season wages of (a) less than 30 times the weekly benefit amount, if worker's seasonal wages were earned in a cotton ginning industry or professional baseball with an operating period of 6-26 weeks; or (b) less than 24 times the weekly benefit amount, if seasonal wages were earned in a cotton ginning industry or professional baseball with operating period of 27-36 weeks.
North Carolina	25 percent or more of base-period wages earned in operating period of seasonal employer.
Ohio	Some wages earned in operating period of seasonal employer.

---

<sup>1/</sup>For seasonal lodging facilities, variety store or trading post, restaurants and camps, a period of less than 26 weeks applies.

<sup>2/</sup>Applies only to individuals with a reasonable assurance of seasonal reemployment.

## BENEFITS

Pennsylvania	Seasonal wages for less than 180 days of work in operating period. <sup>1/</sup>
South Dakota	Some wages earned in operating period of seasonal employer. <sup>2/</sup>

2. Another type of restriction is applicable to claimants who earned a large proportion of their base-period wages in the operating period of a seasonal industry. Under these provisions no benefits may be paid to the seasonal workers.

West Virginia	Individual with less than 100 days of employment in seasonal industry and less than \$100 in other covered employment.
Wisconsin	Service performed by an individual for a seasonal employer is not covered unless he or she was employed by a seasonal employer for 90 days or more during 2 cQ's or is paid wages of \$500 or more during the base period for at least one employer in other covered employment.

3. A third type of restriction is applicable to individuals in Minnesota who have employment in seasonal work. Minnesota defines seasonal work as work with a single employer in the recreation or tourist industry which is available with the employer for 15 consecutive weeks or less in each calendar year. Minnesota requires that these individuals also have 15 or more weeks equal to or in excess of 30 times the weekly benefit amount in nonseasonal work, because wages paid in seasonal work are not available for benefit purposes outside the season.

4. Under the fourth type of restriction, benefit rights are based on total base-period wages but benefits are payable only for weeks of unemployment that fall within the operating season of the employer or industry in which the worker earned the seasonal wage credits. In Delaware a claimant is considered a seasonal worker if more than 75 percent of the base-period wages were earned in the operating period of the seasonal employer.

### 345 INTERSTATE BENEFIT ARRANGEMENTS

To encourage a claimant to move from a State where no suitable work is available to one where there is a demand for the type of service the claimant is able to render, States have historically entered into agreements to protect the benefit rights of workers who have made such moves. Prior to the Employment Security Amendments of 1970 (P.L. 91-373) which required the State to ".....participate in any arrangements for the payment of compensation on the basis of combining an individual's wages and employment covered under the State law with his wages and employment covered under the unemployment compensation law of other States which are approved by the Secretary of Labor in consultation with the State unemployment compensation agencies as reasonably calculated to assure the prompt and full payment of compensation.....," the State had developed several different wage-combining plans to provide for payment of benefits to interstate workers. However, not all States had belonged to any one plan.

---

<sup>1/</sup>Applies only to individuals with a reasonable assurance of seasonal reemployment.

<sup>2/</sup>If the initial claim is filed within the operating period, entitlement is computed on the basis of both seasonal and nonseasonal wages; if filed outside such period, computation is based on only nonseasonal wages.

## **BENEFITS**

**345.01 INTERSTATE BENEFIT PAYMENT PLAN.**--This plan permits collection of unemployment insurance benefits from the State in which an individual has qualifying wages although not physically present in that State. The State in which the individual is located accepts the claim, acting as agent for the State that is liable for the benefits claimed. Determinations on eligibility, disqualifications, and the amount and duration of benefits are made by the liable State.

**345.02 WAGE-COMBINING ARRANGEMENT.**--The arrangement developed as a result of the 1970 amendments to the Federal law provides for applying the base period of a single State law (that of the paying State) to a claim involving the combining of an individual's wages earned in two or more States while avoiding duplicate use of wages and employment because of such combining. The arrangement continues to permit, as did prior interstate agreements, multi-State workers to combine their wages and employment in more than one State, both when they have insufficient wages and employment to qualify for benefits in any one State and when, having sufficient wages and employment to qualify for benefits in one State, their benefits would be increased by combining their wages and employment in other States. In addition, the arrangement permits workers, having sufficient wages and employment to qualify for benefits in more than one State, to combine their wages in those and any other States in which they had wages and employment in the base period of the paying State. A claimant who elects to file a combined-wage claim is required to combine all the transferable wages and employment in all States in which such claimant worked during the paying State's base period. The claimant may, however, withdraw the combined-wage claim at any time before the monetary determination of that claim has become final.

In general, with the exception of wages and employment previously used as the basis of a monetary determination to establish a benefit year, all States are required to transfer to the paying State the wages and employment that a combined-wage claimant had in covered employment during the paying State's base period. Exempt from such mandatory transfer are wages and employment that were canceled or otherwise made unavailable to the claimant by a determination which the transferring State made before it received the request for transfer. In general, unless the issue has previously been adjudicated by a transferring State, all determinations with respect to a combined-wage claim are to be made by the paying State under the provisions of its law and in accordance with its law's requirements on determinations and appeals.

The arrangement provides for consultation by the Secretary of Labor with the State unemployment compensation agencies as to the rules, regulations, procedures and forms which the Secretary prescribes and the States follow for operation of the arrangement. Disagreements between States as to the operation of the arrangement are resolved by the Secretary with the advice of the State agencies' duly designated representatives. The agreement also provides for periodic review of its operation. Amendments to the arrangement may be proposed by the Secretary, by any State agency, or by the Interstate Conference of Employment Security Agencies and are made, upon approval, by the Secretary in consultation with the State unemployment compensation agencies.

### **350 SHORT-TIME COMPENSATION (WORKSHARING)**

P.L. 97-248 directed the Department of Labor to develop model legislation that can be used by States wishing to establish short-time compensation (worksharing) programs. There is no requirement that States adopt this legislation. The States with worksharing programs in effect are Arizona, Arkansas, California, Florida, Iowa, Kansas, Louisiana, Maryland, Massachusetts, Minnesota, Missouri, New York, Oregon, Rhode Island, Texas, Vermont and Washington. Connecticut has a shared work program but has not issued regulations on the requirements and administration of the program.

## **BENEFITS**

A worksharing plan of an employer must be agreed to by both employer and union with final approval by the State employment security agency. Worksharing is a plan under which an employer, faced with the need for layoffs because of reduced workload, might spread the hours of work required to produce a given product of goods or services, avoiding layoffs by reducing the number of regularly scheduled hours of work for all employees in an establishment or work unit. Unemployment benefits would be payable to workers for the hours of work lost by this action, as a proportion of the benefit amount for a full week of unemployment. Shared work benefits differ from benefits paid under the partial benefits formula in a State by paying benefits to individuals who would not, under the partial benefits formula, be considered unemployed. Also, duration is limited to 20 weeks in California and in New York (exclusive of waiting week); 26 weeks in Arizona (but may be extended if the insured unemployment rate for a 13-week period is equal to at least 4%), Arkansas, Florida, Iowa, Kansas, Louisiana, Maryland, Minnesota, Missouri, Oregon, Rhode Island, Texas, Vermont and Washington; 30 weeks in Massachusetts in any 12-month period and employees will not be expected to meet the standard availability for work, actively seeking work or refusal of work requirements as in the regular unemployment insurance program but will be required to be available for the employee's normal workweek.

In Arizona employers with a negative reserve account balance and whose account has been charged for benefits paid under worksharing are assessed an additional rate of tax. In Florida, Missouri and Oregon any employer participating in a worksharing program can be assessed a higher rate of contributions than the maximum rate for non-worksharing employers. In Arkansas, California, Kansas (program does not apply to negative account balance ERs), Iowa, Louisiana, Maryland, Massachusetts, Minnesota, Rhode Island, Texas, Vermont and Washington shared work benefits will be charged to an employer's account in the same manner as for regular unemployment benefits. However, in Massachusetts if an employer's account reserve percentage is negative, the employer will be charged on a dollar for dollar basis as if he were a reimbursing employer. In New York shared work benefits are charged to the appropriate account in an amount expressed in dollars rather than effective days.

### **355 SELF-EMPLOYMENT ASSISTANCE (SEA) PROGRAM**

The implementing legislation for the North American Free Trade Agreement (NAFTA) allowed States the option to establish SEA programs to help unemployed workers to create their own jobs by starting small businesses. To be eligible for such program an individual, must be eligible for unemployment compensation; have been permanently laid off from their previous job and are identified through the profiling system as likely to exhaust their benefits; must participate in self-employment activities including entrepreneurial training, business counseling, and technical assistance; self-employment allowances will be funded out of each State's account in the Unemployment Trust Fund at no additional cost to the unemployment insurance system; and no more than five percent of individuals receiving regular unemployment compensation may be part of such program.

Individuals who are enrolled in the program will receive weekly self-employment payments. These payments will be the same weekly amount as the worker's regular unemployment benefits, while working full-time on starting a business. Only California, Connecticut, Delaware, Maine, Maryland, Minnesota, New York, Oregon and Rhode Island have established an SEA program.

### **360 HEALTH CARE COVERAGE**

States may, by law, permit individuals to choose to have health insurance premiums deducted from their unemployment insurance weekly benefit amount, providing that the State has an approved health care plan for unemployed individuals. Only Illinois, Massachusetts and Oklahoma have adopted this provision.

## **BENEFITS**

### **365 DISLOCATED WORKERS**

Arizona, California, Delaware, Indiana, Maine, Massachusetts, New York, Pennsylvania, Washington, and Wisconsin have established special programs for dislocated workers which provide job search assistance or job training. None of these programs is funded from the State's unemployment fund.

(Next page is 3-23)

# BENEFITS

1/Last 4 completed CYs following previous BP when new BY overlaps preceding BY, Ariz.; last 4 quarters preceding BY if 1 quarter has been used in a previous determination, Maine, Nev., and Tenn.; Del., Idaho, Oreg., Tenn., Va., and Wash. extend the BY up to 1 wk. if there would otherwise be overlapping of the same quarter in 2 consec. BPs.

2/4 quarters ending 4 to 7 calendar months before BY.

3/BY begins only under the following conditions: if claimant is not disqualified with respect to most recent ER from whom he earned wages in excess of \$25 in 1 wk; however, individuals disqualified under labor dispute provisions are excepted and may establish a BY while disqualified, Mich.; if claimant is not disqualified, N.Y.; is able to work and available for work, N.Y., Pa., and Utah; is unemployed, Calif., Fla., Mich., N.J., N.C., Ohio, Pa., and Wis.; has not misrepresented a material fact with respect to able-and-available requirements or reason for his unemployment, Wyo..

4/Wage data for determining benefit rights are obtained on a request basis after worker files claim. N.Y. has access to wage reporting information through a cooperative agreement with the N.Y. Department of Taxation and Finance. Mich., and R.I., also request ERs to report quarterly wage information. In 1997, Mich. will convert to a wage record system.

5/BY may be canceled in cases of intentional false statement, misrepresentation, or concealment of material information, Mich.. BY is canceled if all or remainder of claimant's benefit rights in current BY are canceled, Colo.. BY may be withdrawn if benefits have not been paid and benefit credit has not been claimed, Minn..

6/BY may not end until after end of 3d complete CQ plus remainder of any uncompleted calendar wk. which began in a quarter following the one in which it commenced.

7/52 wks. preceding BY, Mich.; preceding filing of a valid original claim, N.Y..

9/BP may be extended, up to 4 quarters, if claimant was incapable of work during the greater part of a CQ, Alaska and Oreg.; up to 4 quarters prior to the individual's BY, Conn.; up to 4 quarters depending on length of time a claimant received compensation for temporary disability under a worker's compensation law, Minn.; up to 4 quarters preceding the last day the individual was able to work, Ind.; up to 4 quarters, if individual has insufficient wages to establish a claim because of a job related injury for which the individual received workers' compensation, N.C.; up to 4 quarters preceding the disability if the claim was filed within 24 months from the date of the individual's disability, Mont.. Colo., N.Mex., Oreg., Utah, and Wyo., "freeze" benefit rights for any continuous period up to 36 months during which claimant received worker's compensation, provided claimant files claim within the 4th wk. (90 days in Utah and 60 calendar days in Wyo.) after termination of illness or injury. BP may be extended, up to 4 quarters, if individual has insufficient wages to establish a claim because of job-related injury or if the individual who has received worker's compensation files an unemployment insurance claim within 4 wks. after having received worker's compensation, Ky.. In Ill., BP may be extended up to 1 yr. if the claimant received temporary total disability under a workers' compensation act or occupational

(Footnotes continued on next page)

## BENEFITS

(Footnotes for Table 300 (Continued))

diseases act. In Mass., BP may be lengthened up to 52 wks. if claimant received compensation for temporary total disability under a worker's compensation law for more than 7 wks. in BP. In Iowa the BY may be extended 3 or more quarters if he received workers' compensation or weekly indemnity insurance benefits for 3 or more quarters. N.Y. extends BP by the number of wks. an individual received workers compensation benefits or any benefits paid under the volunteer firefighters benefit law up to 6 months. Mich. will extend the BY equal to the number of wks. of the claimants continuous involuntary disability, up to a maximum of 156 wks., if the agency is notified of the disability within 90 days of its onset by the claimant's physician.

10/Last 4 quarters, but the BP may be changed by regulation to the first 4 of the last 5 completed calendar quarters, Nebr.

11/BP may be the last 4 quarters if the first 4 out of the last 5 is not used, Ohio and Wash.; an alternative BP may be provided for an individual who files a claim within the first 30 days after the close of the 4th quarter or if an individual believes he or she is eligible for a higher benefit amount, Mass.; BP may be last 4 quarters if individual fails to meet qualifying wage requirements, Maine; BP may be the last 4 quarters if individual fails to meet qualifying wage requirement, R.I.; BP may be one of two alternatives if individual fails to meet qualifying wage requirements: (1) last 4 quarters, or (2) last 3 quarters plus any weeks of work in quarter in which claim is filed, Vt.

12/If an initial claim is filed within 24 months from the date an individual's illness or injury began or occurred, the alternative BP will be the first 4 of the last 5 completed CQs preceding the disability, Tex.; an individual who received temporary total or partial disability compensation or payment for rehabilitative services under a workers' compensation law may elect an alternative BP of the first 4 of the last 5 completed CQs preceding the disability, if the individual files a claim within 4 cal. wks. of the disability period and files a claim within 3 yrs. after the disability period begins; however, the elected BP will be the first 4 completed CQs if a CQ was used in a previous BY, Nev.; an individual who experienced a medically verifiable temporary total disability may elect an alternate BP of the first 4 of the last 5 completed CQs preceding the disability if the individual filed a claim within 3 yrs. of the disability and no longer than 6 months after the end of the disability, Idaho; if an individual received temporary disability insurance benefits for no more than 2 yrs. and files a valid claim for unemployment benefits from a job which is no longer available, the BP will be the first 4 of the last 5 completed CQs preceding the individual's period of disability, N.J.; an individual who received temporary total disability payments under a workers' compensation law may use a BP of the first 4 of the last 5 completed CQs preceding the disability, if a claim is filed within 24 months of the date the disability was incurred, S.Dak.; an individual who received temporary total disability benefits may use a BP of the first 4 of the last 5 completed CQs preceding the disability, if a claim is filed within 4 cal. wks. after the end of the disability period and within 2 yrs. after disability period begins and has attempted to return to the employment where the temporary total disability occurred, Ariz.

1/ Wages in at least 2 quarters automatic requirement for all claimants. Additional requirement for claimants; 6 x the State aww and HQW of at least 1-1/2 x the State aww, N.C.; 6 x aww in BP, Maine.

2/ If claimant failed to meet qualifying requirement for wba computed on HQW but does meet the qualifying requirement for next lower bracket, is eligible for lower wba.; Md. provides a stepdown of 6 brackets; Pa., 3 brackets; and Del., 5 brackets; P.R. has an unlimited stepdown provision.

3/ Requirement, expressed as 20 x an aww of at least \$20 in BP, is equivalent to 20 wks. of employment with wages averaging at least \$20.

5/ The multiple (1-1/2) is not applied to the individual's HQW in Md., but the qualifying amount, shown in a schedule, is computed at the upper limit of each wage bracket (assuming a normal interval at the max. benefit amount).

7/ Weeks of employment with wages of 27.5% of the State aww, Ohio; with min. aww the greater of 21 x min. wage in effect on Feb. 4, 1991, or \$80, N.Y.. In Minn., and Oreg., no weekly amount specified. In Mich. at least 20 wks. in which claimant earned 20 times the State min. hourly wage (\$67); in N.J., 20 percent of the statewide aww (currently \$126).

8/ If claimant does not meet regular qualifying requirement, can qualify in N.Y. if claimant has 15 wks. employment in the 52-week period and total of 40 wks. of employment in the 104-week period preceding the BY.

9/ Alternative flat-amount requirement of 12 x aww (currently \$7,600) in BP, or 770 hours in the production and harvesting of agricultural crops, N.J.; \$10,700 in BP, Okla.; 3 x the total min. (400 x the min. hourly wage) in the BP, R.I.; 14 wks. employment and BP wages equal to 20 times the State aww, Mich.; wages in 2 qtrs. of BP, wages in 1 qtr. sufficient to qualify for the max. wba and total BP wages equal to or greater than the taxable wage base (\$7,000), Ariz.; wages in 2 qtrs. of BP and total BP wages of 40 x wba, Ga.; wages in 2 qtrs. of BP of 1-1/2 times the maximum Missouri taxable wage base for that year, Mo.; \$858 in HQ and 39 x wba in BP, V.I..

10/ Agricultural workers may qualify on the basis of earnings in a single CQ, P.R..

11/ HQW must not be less than 26 times min. wba which is computed annually.

12/ Weeks of employment include all wks. in which an individual receives or is entitled to receive holiday and vacation pay, termination pay, sick pay and back pay.

(Footnotes continued on next page)

## BENEFITS

(Footnotes for Table 301 Continued)

13/ To qualify for benefits an individual needs either \$1,300 in HQ or \$900 in HQ with BP wages equal to 1.25 x HQ, Calif.; in Nev., BP wages of 1-1/2 x the HQ or wages in 3 of the 4 qtrs. in the BP; in Vt., \$1,163 in a qtr. and BP wages of at least 40% of the total HQ wages, also the HQ wages will be adjusted by a percentage increase equal to the percentage increase in the State min. wage for the prior year; in Okla. 1-1/2 x hqw and \$1,500 in the BP; in R.I., 200 x min. hourly wages in 1 qtr. and BP wages of 1-1/2 x HQ, however, the BP wages must be at least 400 x the min. hourly wage.

15/ Requires 1-1/2 x HQ or 20 wks. of insured work with 5% of the monetary BP wage requirement (8% of State average fiscal year wages in BP, rounded to the higher \$100) in each wk., Utah.

16/ An individual must also have 1-1/2 times a HQ amount computed at 3.5% of the statewide aaw, Iowa.

17/ Defined in law as 8% of State aaw in BP, rounded to lower \$50, Wyo.; total BP wages must equal 7% of the aaw or 50% of aaw, Mont.

18/ 16 weeks at weekly minimum earnings of \$50 qualify for 16 weeks duration.

1/ Within preceding BY, Calif.; last 2 quarters of BP, Ky.; for at least one CQ, P.R..

2/ Wages must be in bona fide work.

3/ Or 3/13th of hqw, whichever is lesser, La., Mont., N.Mex., and V.I.; or 10 x the wba in noncovered work, Mo.; or \$300, whichever is greater, Conn.; but not less than \$50, P.R..

4/ No additional requirement since the lag period, if any, between BP and BY is too short to qualify for a second BY (sec. 305).

5/ In S.C. insured work must be performed with a single ER.

7/ In Ohio 3 times the aww and covered employment in 6 weeks; in R.I. 80 times the min. hourly wage; in Ind. the wba in each of 8 weeks.

1/When State uses weighted high-quarter, annual-wage or average-weekly-wage formula, approximate fractions or percentages are taken at midpoint of lowest and highest normal wage brackets. When additional payments are provided for claimants with deps., fractions and percentages shown apply to basic benefit amounts. In Ohio, benefit amounts above the max. are generally available only to claimants in dependency classes whose aww are higher than that required for max. basic benefit amount.

2/When 2 amounts are given, higher figure includes DA's. Augmented amount for min. wba includes allowance for 1 dep. child. Augmented amount for max. wba includes allowances for max. number of deps.; in D.C., Md., and N.J., same max. with or without deps.

3/For claimant with aww in excess of \$66, wba is computed at 1/52 of 2 highest quarters of earnings, or 1/26 of HQ if claimant has no more than 2 quarters of work.

4/Wba expressed in law as percent of aww in HQ: in Colo. 60% of 1/26 of 2 highest qtrs.; 49.5% of wages in 2 highest quarters divided by 26 in Ill.; 50% in S.C. (aww defined as 1/13 of HQW). Colo. provides an alternate method of computation for claimants who would otherwise qualify for a wba equal to 50% or more of the statewide aww if this yields a greater amount--50% of 1/52 of BPW with a max. of 60% of statewide aww in selected industries.

5/Separate benefit schedule for agricultural workers with payments, based on annual earnings, ranging between \$10 and \$40.

6/Min. computed annually in N.Mex. at 10%; Ark., 12%; Mont., Oreg., and Wash., 15% of aww. In Kans. min. computed annually at 25% of max. wba and Wis. semiannually at 19% of max. wba. In R.I. the flexible qualifying requirement results in a flexible min. wba.

7/Amount shown for HQW is 1/4 BPW needed to qualify for max benefit; determination of max. benefit based on 50% of 1/52 of claimants's BPW with no specified amount of HQW required, Colo.

8/In Fla., Mich., N.J., N.Y., and Ohio, 20 x lower limits of min. and max. aww brackets; in Wis., 17 times aww. Since benefits are determined separately for each ER, some claimants with bpw less than that shown may qualify for either the min. or max. wba with respect to a given ER, Wis.

9/Or 50% of full-time weekly wage, if greater.

10/Computed as wages in the 2 highest qtrs. divided by 45 (but not more than the maximum wba), Vt.; computed as 5 percent of the first \$1,750 in HQ wages and 4 percent of the remaining HQ wages, Ind.; computed as 1/25 of HQ wages when alternative qualifying wages are used, Ga.

(Footnotes for Table 304 Continued)

11/1/46 of wages earned in highest 2 quarters if the trust fund balance is at least \$90 million or as 1/52 of wages earned in 2 highest qtrs. if the trust fund balance is less than \$90 million, Del.; as 49.5 percent of the claimant's wages in highest 2 qtrs. divided by 26, Ill.; as 1/25 of the 4 qtrs. of the BP, La.; 1/65 of total wages earned in highest 2 quarters and 1/2 of total wages in third quarter, N.Dak..

12/Wages in the 2 HQs used unless otherwise indicated.

13/Weekly benefit amounts will be reduced by 5 percent or by the reduction determined by a trigger mechanism, but the wba may not be reduced to less than half the max. wba, Pa.; until Oct. 1995, a claimant's wba will be reduced by \$6, therefore the max. wba will be \$192-\$288, Maine.

14/In Alaska the computation of an individual's wba and duration will vary depending on the distribution of wages over the BP. An individual who is paid 90% or more of his wages in the CQ will not use that quarter of wages but will have BPW determined using wages earned in the other 3 quarters, multiplied by 10. An individual who is paid less than 90% of his wages in one CQ uses all wages paid in the BP; 1 percent of BP wages or 1.9 percent of wages in 2 HQ's of BP, Mont..

15/70 percent of after tax earnings up to 58 percent of State aww, Mich..

16/The wba reflects a 7 percent decrease and a 5 percent discount from the computed maximum of \$205, La.; if the trust fund balance is less than \$200 million but greater than \$165 million the max. wba will be \$265, if the fund balance is less than \$165 million but more than \$150 million the max. wba will be \$245, if the trust fund balance is less than \$150 million but equal to or greater than \$90 million the max. wba will be \$225, and if the trust fund balance is less than \$90 million the max. wba will be \$205, Del..

17/An individual will not be eligible for benefits if the BP earnings outside HQ are less than the lesser of 6 x wba or \$900, Tenn..

18/If HQ wages exceed \$4,966.99, the max. wba will be 39 percent of these wages divided by 13, Calif..

## BENEFITS

Table 305.--Flexible Benefit Provisions, 35 States 6/ (Continued)

State	Method of Computation					Percent of State aww		Effective date of new amounts
	Annually as % of aww in covered employment in --			Semiannually as % of aww in covered employment				
	Preceding CY	12 mos. ending March 31	12 mos. ending June 30	12 mos. ending 6 mos. before eff. date	All industries in State	Maximum	Minimum	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
Wash.	X	• • • • •	• • • • •	• • • • • • •	• • • • • • •	70	15	1st Sunday in July
W.Va.	X	• • • • •	• • • • •	• • • • • • •	• • • • • • •	66-2/3	• • • • • • •	July 1
Wyo.	X	• • • • •	• • • • •	• • • • • • •	• • • • • • •	55 <u>12/</u>	<u>12/</u>	July 1

1/Based on aww of production and related workers. May not be increased by more than \$18 in any year.

4/For claimants with no dependents. Other percentages ranging from 55% to 65% apply to claimants with one or more dependents.

5/Percentage used is not specified by law. Until 1993, an additional adjustment may be made to lighten the impact of the freeze on the maximum wba in effect between 1983 and 1986, Ohio.

6/Does not include Tex. where the max. and min. wba's will be increased by \$7 and \$1, respectively, effective on October 1 of any year in which the aww of manufacturing production workers exceeds by \$10 the 1976 aww of those workers.

7/For claimants with dependents, max. is limited to 66-2/3% of State's aww. For CY's 1993-1996 the State aww is not specified in the law, but for CY 1997 the State aww will be \$474. For CY 1998 and thereafter the State aww will be based on percentage changes from year to year. Max. for claimants with dependents is limited to 65.5% of State's aww, Ill..

8/Maximum cannot increase in any year when tax schedule increases from previous year. Year to year increases limited depending on trust fund balance, Ky..

9/The min. and max. wba's are frozen indefinitely, La.. The max. wba is frozen until October 1995, Maine; until 1997, Mich..

10/62% of State aww if trust fund reserves on Oct. 1 are equal to or greater than the required amount, or 65% of State aww if trust fund reserves on Oct. 1 are equal to or greater than the required amount and the State's average contribution rate is below the nationwide average for the preceding year, N.Dak..

11/The greater of \$197 or 60%, 57.7%, 55%, 52.5% or 50% of State aww of the second preceding CY depending on the condition of the fund, Okl.; 66-2/3%, 66%, 65%, 64%, 63%, 62%, 61% or 60% of State aww depending on the balance in the fund, Minn..

12/Max. reduced to 85% of max. wba if trust fund revenues are insufficient to pay benefits or repay loans and the min. wba is computed at 4% of the qualifying wages in the HQ, Wyo.. A ceiling may be put on the max. wba depending on the condition of the fund, D.C..

Nebr.	wba.	1/2 wba. <u>3/</u>			
Nev.	wba.	1/4 wages.			

(Footnotes on next page)

## BENEFITS

(Footnotes for Table 306)

1/In N.C. wk. of less than 3 customary scheduled full-time days. In P.R. wk. in which wages, or remuneration from self-employment, are less than 1-1/2 times claimant's wba or the claimant performs no service for a working period of 32 hours or more in a week.

2/Benefits are paid at the rate of 1/4 the wba for each effective day within a wk. beginning on Monday. Effective day defined as 4th and each subsequent day of total unemployment in a wk. in which claimant earns not more than \$300.

3/Full weekly benefit is paid if earnings are less than 1/2 weekly benefit; 1/2 wba if wages are 1/2 weekly benefit but less than weekly benefit.

4/An individual will be partially unemployed in any week he receives any wages. Also, no individual may be eligible for partial benefits if the benefit payment is less than \$5; or if an ER paid the individual at least 80% of the BP wages or the individual worked for the ER at least 35 hrs. in the week at the same or a greater rate of pay as the individual was paid in the HQ.

5/For each \$1 earned the wba will be reduced by 50 cents. There is also a limitation on total weekly benefits and earnings at 1-1/2 times the benefit amount with an equal reduction of benefits for each \$1 earned. If the reduction in the wba results in a zero benefit rate, the weeks of benefit payments will be reduced by 1 week, Mich.

6/Earnings plus wba may not equal or exceed the individual's aww.

7/Up to \$200 in earnings from service in the National Guard or military reserves and pay received for jury duty and as a volunteer firefighter or volunteer ambulance service personnel will be excluded from benefit computation, Minn.; excludes wages from service in the organized militia for training or authorized duty from benefit computation, Mo., and Oreg.; excludes wages received by members of the National Guard and organized labor, including base pay and allowances or any amounts received as a volunteer emergency medical services individual from benefit computation, Maine; excludes wages received as a volunteer fire fighter or voluntary medical technician from benefit computation, Wis.; includes holiday pay in the remuneration for determining partial benefits, Conn., and Oreg.. Mo. also excludes termination pay and severance pay as wages; Ga. and N.Mex excludes payments for jury service.

1/Includes stepchild by statute in all States except Maine and Mass.; adopted child by statute, Alaska, Ill., Ind., Maine, Md., Mich., N.J., Ohio, R.I.; and by interpretation, Mass.; legal guardian, Mass.; full-time student, Conn., Maine, Mich., Mass., and N.J.. Parent includes stepparent, D.C.; legal parent, Mich..

2/Only dependents residing within the U.S., its Territories and possessions.

3/Child must be unmarried, Alaska, N.J. and, by interpretation, Mass.; must have received more than half the cost of support from claimant or be lawfully in the individual's custody at the time the individual claims the allowance, Alaska; must have received more than half the cost of support from claimant for at least 90 consec. days or for the duration of the parental relationship, Mich., and Ohio.

4/Not able to work because of age or physical disability or physical or mental infirmity. In Mich. parents over age 65 or permanently disabled for gainful employment, brother or sister under 18, orphaned or whose living parents are dependents.

5/Spouse must be currently ineligible for benefits in the State because of insufficient BP wages, Ill.; may not be claimed as dependent if average weekly income is in excess of 25% of the claimant's aww, Ohio. No dependency allowances paid for any week in which spouse is employed full time and is contributing to support of dependents, Maine. No dependency allowance paid for any week in which spouse earns more than \$120 in gross wages, Iowa.

6/Federal District Court has held that the term "children" includes any child for whom a claimant stands in place of the parents (Vaccarella v. Commr.).

<sup>1/</sup>Assuming max. wks. for total unemployment; wks. of partial unemployment could increase this amount because full allowance is paid for each wk. of partial unemployment.

<sup>2/</sup>Same max. wba with or without dep. allowances. Claimants at lower wba may have benefits increased by dep. allowances.

<sup>5/</sup>Not more than 26 payments for dep. may be made in any one BY.

<sup>6/</sup>Benefits paid to claimants with dep. are determined by schedule according to the aww and dependency class, Ohio. See text for details. Pa. provides \$3 for one other dependent.

<sup>7/</sup>In Mich. the wba is based on an average after tax weekly wage and tax tables which take into account the number of dependents.

<sup>8/</sup>The greater of \$10 or 5 percent of the individual's benefit rate per dependent, up to 5 dependents.

(Table continued on next page)

Table 309.--Duration of Benefits in a Benefit Year (Continued)

State	Proportion of BPW credits or weeks of employment <sup>1/</sup>	Minimum potential benefits <sup>2/3/</sup>		Maximum potential benefits <sup>3/</sup>			
		Amount	Weeks	Amount <sup>4/</sup>	Weeks	Wage credits required	
						High quarter	Base Period
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Wash.	1/3	\$2,250.00	16+ -30	\$10,500.00	30	\$8,750.00	\$31,500.00
Wis.	40 percent	600.00	12	6,916.00	26	6,650.00	17,290.00
Wyo.	3/10	510.00	12-26 <sup>2/</sup>	6,058.00	26	5,825.00	19,416.67

<sup>1/</sup>In States with weighted tables percent of benefits figures at bottom of lowest end of highest wage brackets; in States noted, percentage at other brackets are higher and/or lower than percentage shown. In Alaska, Idaho, Mont., and N.Dak. duration based on ratio of annual wages to HQW--from less than 1.50 to 3.5 or more in Alaska, from 1.25-3.25 in Idaho, from less than 1.25 to 3.25 in Mont., and from 1.5-3.2 in N.Dak. In N.C. duration is based on ratio of BPW to HQW multiplied by 8-2/3.

<sup>2/</sup>Potential benefits for claimants with min. qualifying wages. Min. wks. apply to claimants with min. weekly benefit and min. qualifying wages. In States noted, the min. duration varies according to distribution of wages within BP; longer duration applies with min. wba and the shorter duration applies with max. possible concentration of wages in HQ (which results in a wba higher than the min.).

<sup>3/</sup>Benefits extended under State program when unemployment in State reaches specified levels--Alaska, and Calif. by 50%; Conn by 13 wks; D.C. by 10 wks; Oreg. by 25%. In Hawaii benefits extended by 13 wks. when a manmade or disaster causes damage to either the State as a whole or any of its counties and creates an unemployment problem involving a substantial number of persons and families. In P.R. benefits extended by 32 wks. in certain industries, occupations or establishments when special unemployment situation exists. Benefits also may be extended in all States, on a State basis, during periods of high unemployment by 50%, up to 13 wks., under the Federal-State Extended Unemployment Compensation Program.

<sup>4/</sup>When 2 amounts are given, higher includes DA. In the D.C., Md., and N.J., same max. with or without deps.

<sup>5/</sup>Amount shown for HQW is 1/4 BPW needed to qualify for max. benefits; determination of max. benefit based on 50% of 1/52 of claimant's BPW with no specified amount of HQW required.

<sup>6/</sup>Annual-wage formula; no required amount of wages in HQ.

<sup>7/</sup>No required number of wks. of employment or amount of wages in HQ. Figures given are based on highest aww for claimants without deps.: \$500.00 in Fla.; \$447.18 in Mich. (for claimants with deps., \$161.67 to \$225.01, depending on number of deps.); \$590.00 in N.J.; \$599.00 in N.Y.; \$490.00 in Ohio (for claimants with deps.; \$590.00 to \$656.00 based on number of deps.). Base-period figure is 52 wks. in Fla.; 35 wks. (34 if all wage credits earned with 1 ER) in Mich.; 35 wks. in N.J.; 20 wks. in N.Y.; 26 wks. in Ohio, for max. duration.

<sup>8/</sup>Only specified amount of wages per quarter may be used for computing duration of benefits: 26 x the max. wba in Colo.; \$5,000 in Ind.; 26 x claimant's wba in Mo.

<sup>10/</sup>In Conn claimant with max. augmented benefit needs \$15,400 in BPW; in Ind., such claimants need HQW of \$5,000 and BPW of \$17,828; and the duration shall be no greater than the number of wks. worked in the BP, Okl.

<sup>11/</sup>If laid off due to ER going out of business, 1/2 of wages in BP, up to 39 wks.

<sup>12/</sup>Duration can be much less than 26 weeks for claimants with only one BP ER, Okl.
